# The BDC Platforms

As one of the leading UK building platforms, the Building Design & Construction brands are one of the premier outlets for the promotion of creatives, content and other marketing material. Now in its second decade, BDC provides an in-depth guide tailored to executives in every sector of the industry.

Reaching an enormous trade audience of some 100,000+ individuals monthly via the Monthly print/digital Magazine, Mailchimp Newsletter and Website. The BDC Platform reaches a vast array of procurement decision makers to provide the ideal platform for the promotion of product, service, and excellence.

As testament to this notion, the publication is used by marketers of all shapes and sizes to promote products and services relevant to the building sector in a professional manner.

## BDC Social Media

BDC has a rapidly growing LinkedIn community of over 21,000 industry professionals, with a target to surpass 30,000 followers by 2027. Each month, our magazine is posted on the day of release, giving followers immediate access to the latest insights and trends in the building, construction, and property sectors. In addition, all news posts from the BDC website are shared with our audience, consistently driving strong engagement, with some posts reaching over 25,000 industry experts. Don't miss out—follow BDC now to stay informed and connected!

### Get your Web post 'BOOSTED'

Buy a Web post on the BDC Website and give it a BOOST through the LinkedIn platform all for £750. Guaranteeing a minimum of 200 direct clicks. Just choose your audience type, industry and location.

# BDC Magazine Advertising Information

Building Design & Construction magazine is constantly at the forefront of this fast-moving and dynamic industry. With sound journalism and up-to-date news and reaction to the stories that are affecting your industry today, BDC magazine keeps you one step ahead.

For over 20 years, BDC has been the go-to resource for business professionals in the industry. With its contemporary design, a news section packed with current events, interviews with the trade's top professionals, and in-depth case studies on leading businesses, the magazine puts you in touch with the developments of your industry. It's our business to help your business.

With a fresh and current approach, the magazine has attracted an engaged readership with subscribers including Management Level Executives and Key Decision Makers.

**When you pick up a copy of BDC magazine, you're in good company.**

## BDC Digital Magazine

Over the last 7 years, the digital version of BDC has really taken off. Distributed through Mailchimp the BDC Monthly Newsletter is sent to over 75k industry professionals each month and also promoted through the home page of the BDC website for 3 months and to our 21,000+ LinkedIn followers. Each digital issue of BDC has amazing OTS value. The digital magazine uses the MYEBOOK publishing software for a seamless browsing experience. MYEBOOK is fully transparent to every visitor in the number of unique views each publication receives. When visiting each issue of the BDC Digital Magazine, you can check yourself.

## BDC Print Magazine

With a current circulation of just under 6000 industry professionals, the print version of the magazine is where it all started. We are proud of continuing to print the magazine. To take a 12-month subscription of the print magazine, please email [enquiries@bdcmagazine.co.uk](mailto:enquiries@bdcmagazine.co.uk) with your request. We charge £150 for 12 issues.

# Magazine Advertising Spaces

## Get your business seen!

With a number of advertising spaces, sizes and placements available, Building Design & Construction Magazine can effectively tailor space in the magazine to your marketing needs. Whether you wish to promote your business in the magazine's UK building news pages, as standalone advertorial, or within existing individual features on leading construction companies, we can provide the space you need to communicate your message. Please note that we do provide a free design service for all print advertisements.

## The Technical Bits

All advert content and text should be sent digitally via email, either as a word doc or embedded in the email. If the text is provided as hard copy then we do not accept responsibility for any errors occurring during re-typing.

Images and logos should be sent digitally via email as high-resolution JPEGs (300dpi). We will not accept anything else lower than this.

All complete adverts must be provided as print-ready PDFs with embedded fonts and high-resolution images, or alternatively as high-resolution JPEGs (300dpi).

All adverts VAT not included.

\*Prime position adverts +20%.

## BDC Forward Features

BDC is a monthly broadcast magazine, so as well as all our features, we keep up to date with the latest news & reviews with all our regular sections & BDC Brands. We work with many governing bodies & associations through the whole industry and publish many articles for them in BDC. For further email [enquiries@bdcmagazine.co.uk](mailto:enquiries@bdcmagazine.co.uk).

## BDC Specials

BDC Specials focuses on the hottest trends and developments in the industry, featuring a themed section in each issue. These insights provide in-depth coverage of key sectors shaping the market. To stay ahead, email our team for details on upcoming specials planned for the next 2-4 months.

|                                                                        |                                                                   |                                                                                   |

# Newsletters

In addition to traditional advertising opportunities, Building Design & Construction Magazine works with a number of leading organisations on a content marketing basis. The BDC Newsletter plays a major part in the BDC Platforms. With over 100k industry professionals on our 3 mailing lists, the BDC Newsletter covers a large part of our readership for the magazine.

This ensures that editorial and promotional messages receive the return on the investment required and that, simultaneously, our readers find the content interesting, engaging and educational from a personal perspective – a best of both worlds scenario.

Using the technology of **MAILCHIMP** the #1 email marketing and automations brand for our main mailing list, this BDC platform is optimised with amazing AI & Analytic reports. Also as the BDC Newsletter has been sent using Mailchimp for the last 3 years, we have a hardened distribution with 96% successful deliveries to inboxes. We only provide data reports from the Mailchimp list, which has over 70% of our subscriber database.

## KINGSPAN

**Product Awareness Training – Stay Compliant**

As you know, Contractors have a responsibility to ensure that products are installed correctly. There may also be a requirement to provide photographic evidence to Building Control to show that what has been submitted fits the design.

Our Product Awareness Training team are on hand to provide you with everything you need to know to ensure that your products are installed correctly.

**What experts can get?**  
You can build your team's knowledge with on-site training and support. Our experienced product technicians cover the full range of Kingspan insulation products and applications, from flooring to roofing and everything in-between, including both internal and external wall insulation. The training covers:

- Product overview
- Suitable applications
- Packaging and storage
- Handling advice
- Fitment and detailing advice
- Installation information including cutting, fitting, adhesives, protective layers and tape joining
- Standards and approvals information

**What about actual installations?**  
We also offer site visits. Our Product Technicians will carry out an inspection of all Kingspan insulation products installed on your site. An experience report will be completed which includes photographs with comments and recommendations for any remedial actions that may be needed, to ensure that the building is fully compliant with the latest regulations and advice.

**Click here to request guidance, book product awareness training or a site visit today**

Please note: This service is available in GB only. Where possible, site visits and training will be carried out in person. However, due to geographical location and resource levels we will provide a site visit, guidance call or product training.

Further information on the Kingspan range is available at:  
T: +44 (0)1446 387 382  
E: technical.enquiries@kingspaninsulation.co.uk  
www.kingspaninsulation.co.uk  
Barnstaple, Lymington, Haverhill  
W18 8LJ.

## MITSUBISHI

**Ask ME\* about decarbonising your buildings**

Decarbonising building operations has never been more important. Mitsubishi Electric provides a comprehensive range of innovative heat pump technology tailored for all building types - from residential settings to offices, schools, hotels, shopping centres, and even zoos. Our cutting-edge products are designed to significantly reduce your carbon footprint and energy consumption, helping you meet your net zero targets.

**Ask ME\* about reducing energy consumption in your building**

Reducing energy consumption is crucial for energy managers. Mitsubishi Electric offers innovative HVAC solutions that can reduce energy use, lower costs, and reduce carbon emissions. Our cutting-edge technology and sustainable products enhance efficiency and ensure comfort and productivity in your buildings - that Mitsubishi Electric can help you achieve energy consumption goals and contribute to a greener future.

**TRANSFORM YOUR ENERGY MANAGEMENT STRATEGIES**

**Ask ME about the multi-award winning Ecodan CARRIER Heat Pump**

The Ecodan CARRIER is a commercial air source heat pump that uses low GWP R32 refrigerant. It offers a robust, low-vibration system for the provision of sustainable hot water and space heating.

- Easy installation with only water and electrical connections required
- Provides water flow temperature of 25°C to 75°C without condensation and an ambient temperature range of 20°C to +40°C
- Can operate singularly or as part of a multiple-unit system

**WATCH OUR VIDEO TO FIND OUT WHERE YOU CAN USE THE CARRIER**

**Mitsubishi Electric Partners with Chester Zoo**  
Our sustainable HVAC solutions can help reduce your carbon footprint.

**Mitsubishi Electric - Collaborators for Commercial Buildings**  
Reduction in carbon footprint and energy consumption.

## UCEM

**Transforming cities and shaping communities**

Our cities are the beating heart of our communities, societies and economies. They're the intricate networks of design, development, decisions and policies that impact the lives of everyone every day. Urban planners play a crucial role in balancing all of these functions, and without their expertise, society wouldn't be able to function.

Are you passionate about designing sustainable and innovative urban environments? On UCEM's part-time, online MSc Urban Planning programme, you will study the relationship between our urban and natural environments, and gain the knowledge and expertise needed to help realise a sustainable built environment.

**Why choose our online MSc Urban Planning?**

- Flexible learning:** Our fully online programme allows you to balance your studies with your professional and personal commitments, providing you the flexibility to learn at your own pace, from wherever you are.
- Leadership skills:** Develop your leadership, negotiation and critical thinking skills, giving you the confidence to engage internal and external stakeholders.
- Comprehensive curriculum:** Our programme covers essential topics such as planning sustainable environments, governance, and planning process, practice and leadership, equipping you with the skills needed to address the complex challenges of urbanisation.
- Global network:** Connect with a diverse community of students and professionals from around the world, fostering valuable networking opportunities and broadening your perspectives.

Urban planners leave a lasting legacy through the projects they implement. The parks, buildings, and infrastructure they design and plan are a testament to their expertise and vision.

# The BDC Website Platform

## Great rates for great returns

Opportunities on the Building Design & Construction Magazine website vary significantly in size, scope, and type. Our website maintains an open-door policy for industry professionals and organisations to utilise our platform for marketing and accessing the extensive readership of our construction industry online. This includes both established professionals and those interested in construction opportunities.

To support organisations in reaching the construction readership, Building Design & Construction Magazine offers a consultancy-founded service for discussing marketing goals and proposing the best means to access the audience. We offer flexibility in advertising composition and design, with our in-house design and digital teams ensuring that all advertisements on the platform receive the best reception for the BDC Brands.
